I spent a lot of time with E. J. when I was young. Learned to drive a stick shift in his white Volkswagen. He was more like a brother than a cousin. He will be greatly missed.

“ E.J. worked with me as a courier, one of our first, when I was Lab Manager. He was always smiling and friendly. We talked about gardening and old times cooking. I would ride with him sometimes and we had long conversations. I missed him when he left. Hugs and prayers to the family. He was a good man.
