“ *I served on the faculty with George at Calhoun College. He was respected by all, and known for his competence and dedication to the profession. He had a way of preparing students for the workplace as well as further academic experience. Invariably students left his classes with the academic stamina and personal integrity to succeed in such difficult fields as medicine and especially pharmacy. He will be missed.*

“ *Mr. Williams was my microscopy professor and mentor. I was an older student, often felt discouraged... but he, with a Christian heart, encouraged me not to ever give up! I graduated with my bachelor's...and... went on further gaining a master's degree...much because of and sincerely thanks to my dear professor and mentor Mr. George Williams... Rest in Peace dear sir...May his family be encouraged, loved and feel The Presence of The Holy Spirit during this time of mourning...*

“ *He was a great example as a Christian man. It was always a pleasure to be around him and his family. Maddie Harbin really enjoyed having him as her biology teacher at ABS and felt her taught her so much. He will be missed. May God comfort you all and strengthen you. In Christian love, Julie and Maddie Harbin*

“ I will always thank George Williams for helping me in my career. I went to college 15 years after I graduated high school, planning on getting a teaching degree in English. One of my first classes at Calhoun Community college was biology and George taught it. He was an awesome teacher! I enjoyed the class so much that I took his zoology class, then changed my major to Biology. I was a work study student and I was given the job of helping in the science department at Calhoun. George turned out to be a great boss and mentor. When I was finishing my last year of college at Athens State, George offered me the opportunity to be the night biology lab tech on campus at Calhoun. That experience that he afforded me, was crucial in getting a much needed teaching position at East Limestone after I received my degree. I have always been so thankful to him for the opportunities he provided. He will be missed. My deepest sympathy and condolences to Pat and the rest of the family.

“ What an awesome man and teacher! You can't count the many lives he touched thru his teaching. I had Mr. Williams for biology at Calhoun in 1978 and 1979, my sister had him in 1980 and 1981. My daughters had him in 2004, 2006 and 2008, we all thought he was the best. He was really interested in teaching and wanted you to learn all he knew. His classes were fun, exciting and sometimes a little hard but he was always there to help. Come all the way to 2024 and my granddaughter had him for biology at ABS, an entire family of GW alumni. Montana loved his classes as much as the rest of the family. He will be missed and ABS has lost a true asset but oh what a legacy he leaves. Prays for his family and the ABS community.

as a child it looked to me like there were SO FEW grownups that were still having fun that i dreaded becoming an adult and having to be boring. George was one of only three that still looked like he was having fun. it literally took the fear of getting older away. humor has its place, but in its place it's unlimited. i will always have the greatest respect for the man and the joy his memories give me.

*Dear Pat, My Sweet Classmate & Friend,
I was shocked and saddened to learn of George's sudden passing! I was so very sad when Sandi Blessing texted me. The times I was around George it was easy to see he was a very special person. My prayer for you and your boys is that in time the sweet memories of your 60 years together will replace some of the hurt, sorrow and loss that now overwhelms you.*
