“ John and Harold, please accept my condolences for the loss of a very special person, a person who found enough love in her heart for all of us. I was so very sad to hear this news, no more hugs, laughs, ball games, eating, jabbing each other over our favorite teams. She was a very wise woman and gave everyone that she met a chance to be her friend, how much better could a person be. I hope the coming weeks are helpful to you all as you sort through the loss and pain of losing Judy, she was always an angel.

Judy, I sure am going to miss you and I promise that I will never forget your friendship and the love that you shared with us all in your life circle. I apologize for not being able to pay my respects to you at this time, life is that way, but you do know that I Love You very much as a friend and I am a much better person from having you as a friend, Hopefully, we shall meet again someday,  
Respectfully, Mike Blizzard
