“ Never forget my experiences with kd it was always an unexpected adventure I wouldn't take anything for them. Flying with him once to Andalusia for Athens high school football state championship to riding all over Tennessee looking for a bull.. I was envious of how he could just talk with anyone and just be his self. I know he will be missed. Love to all the Todd's on the hill!

“ I remember KD taking me flying when I was a kid. He scared me so bad. He flew my cousin and I over the Tennessee River , which as a kid looks enormous. He got really close to the water and said that the engine wouldn't start back up. Of course I thought we were going to crash. He waited til the last minute to start it back up. Laughing of course at his prank. He loved flying and was great at flying.

I also recall his Mom being in the backyard hanging out laundry as KD swooped down towards the ground . She started frantically waving a dish towel at him. Of course this was just him trying to scare her.

I knew Clifford and Stacey very well. We used to save them all the time. In Athens will be down there.
