“ From his last team manager at Rootstock:

I met Mike when I joined Rootstock in 2018. I feel very lucky to have met this very kind, competent and highly intelligent man. With Mike as a lead SME, and a growing training team, we built the Rootstock Learning Center course offering that has become a major asset for the success of all our constituents, customers, partners, employees. Mike never shied away from helping in any way, customizing a training approach with a customer, researching complex product issues for a partner or a colleague, building new advanced courses and content for the learning hours, learning new skills (like video-editing), collaborating with so many always with a calm, kind and professional attitude.

Did you know that Mike ran races well into his 70's, and even started a PhD in Supply Chain Management a year before leaving Rootstock, in his 70's as well? His sharpness as well as his focus on important things in life – integrity, health, family, human relationships, nature, always impressed me.

I am sad that Mike did not get more years to savor his retired life with his kids and grandkids, which he dearly loved. He will be missed, and hopefully his approach to life continues to inspire all of us who had a chance to work with him.

My sympathy goes to his family and loved ones.
