“*Dr. White was beloved "Uncle Bud" to our family. He helped my husband financially and emotionally through his dental school years. Our family loved hearing stories over the years from his childhood and memories of his time in the Vietnam War. He had a heart for furthering education. We are saddened to find out a month later about his passing. Thankfully we had just made a visit to see him and sat and talked for awhile. He was a war hero. Thankful he is now out of earthly pain.*
