“ I worked for Aviagen where Roy worked in Elkmont. I always tried to find Roy workers for the vaccination crew. It was hard finding workers to work with chickens. So Roy told me one day that I could go help the vaccination crew to work if I couldn't find anybody to work for him. I told him I would b willing to do that. Roy was kind of ugly to me at that time. I was scared to death of him! So my boss at the time told Roy to apologize to me. He did and was so nice to me after that apology to me! He always shared pictures of his grandkids to me that he was so proud of when he would come to the HSV office! And of course I shared my grandkids pictures! He was a great person and very dedicated to his job in which I know he loved! Hate he had to die so young and leave his loving family who was more important to him than his job at Aviagen!
